

## MPCX48

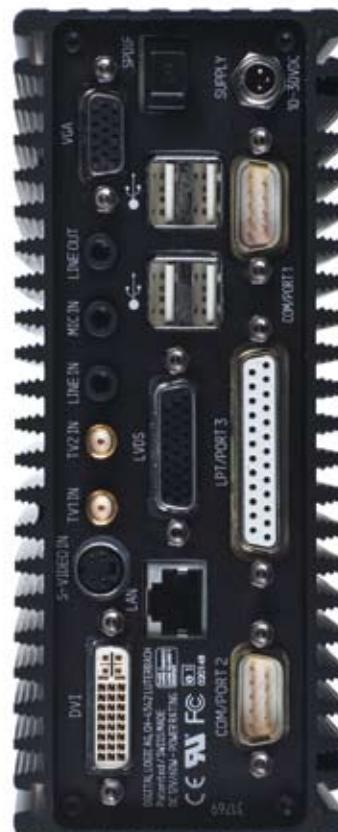

The vehicle computer system with GPS, GSM and DVD option

This totally silent DIGITAL-LOGIC vehicle computer operates on the basis of the Intel® Processor® 800MHz with passive cooling. The main focus is on in-vehicle installation, robustness to vibration and extreme temperatures, replaceable storage media such as hard drives/CompactFlash/DVD and the extremely compact design. 2 protected and secured USB sticks are provided as replaceable mass storage. Up to 2 different displays can be output via 3 video interfaces (DVI, VGA, LVDS). The MPCX48 can be used together with an in-vehicle display system DV monitor (6.5-12").

Simple operating software for operating all device-internal functions via the touch screen of the DV monitor is optionally available.

### Applications:

- \_ Specially developed for installation in cars, boats and lorries
- \_ Measuring computer and control computer for vehicle testing
- \_ Communication computer with internal GSM, WLAN, LAN and GPS
